Training Philosophy – We believe in only positive reinforcement we do not knowingly adopt our dogs to homes where short sighted, relationship harming techniques or methods are utilized, such as invisible or electric fences, choke or prong collars, electronic or bark collars. We recommend a harness for comfort and control, and can make one available to you. We deplore the use of de-barking as barbaric and cruel.

Positive and consistent training is associated with fewer behavior problems and greater obedience than methods that involve punishment and/or encourage human dominance.
